

SCOTCHGARD™ STONE FLOOR PROTECTOR

Lasting strength and shine with less maintenance

Introducing Scotchgard™ Stone Floor Protector. It delivers a highly durable seal with less labor — and a significantly higher return on investment.

In just one to two coats, Scotchgard™ Stone Floor Protector produces a clean, shiny finish that is less susceptible to scuffs and scratches. Dust, chemical and water-resistant, it lasts for up to a year with minimal maintenance. That means you'll spend less of your operations budget on labor and floor-finishing chemicals, without sacrificing your glossy floors.

Features and benefits:

- Helps protect against stains, scuffs and scratches for a long-lasting finish
- Finish applies in one to two coats, helping to reduce maintenance
- Dries in 20 to 30 minutes, so rooms are functional faster
- Easy to reapply — no stripping or deep scrubbing required
- Provides an Environmentally Preferable solution* for greener cleaning
- Suitable for multiple substrates: concrete, marble, terrazzo and other porous-stone surfaces

Helps reduce
your operations
spend up to 35%
in the first year.

Scotchgard™ Stone Floor Protector maintains a durable finish for up to one year. Studies show that reducing the maintenance and chemical requirement associated with traditional acrylic floor finishes results in up to 35 percent savings in operations costs the first year and up to 60 percent savings in subsequent years.

Protection that pays

Scotchgard™ Stone Floor Protector

A durable finish that's easy to apply and repair

Scotchgard™ Stone Floor Protector installs easily: strip, burnish, dust and apply. The unique backpack application is as simple as mopping, so virtually anyone on your staff can do it. The finish is contained in a sealed pouch, so there's no pouring or chemical contact.

Once Scotchgard™ Stone Floor Protector is applied, you can maintain it for up to a year with regular dust mopping, damp mopping or machine scrubbing, as necessary.** If scratches occur between reapplications, a quick burnish with the Scotch-Brite™ Purple Diamond Floor pad will restore the finish. And, when it's time to recoat the floor, simply clean the floor and reapply — no need to strip or deep scrub.

The Scotchgard™ Stone Floor Protector works best in combination with these products:

- Scotch-Brite™ Sienna Diamond Floor Pad Plus
- Scotch-Brite™ Purple Diamond Floor Pad Plus
- 3M™ Easy Trap Duster
- 3M™ Easy Shine Applicator System

Protection that pays

* "Environmentally preferable," according to Executive Order 13101, means products or services that have a lesser or reduced effect on human health and the environment when compared with competing products or services that serve the same purpose. This comparison may consider raw materials acquisition, production, manufacturing, packaging, distribution, reuse, operations, maintenance, or disposal of the product or service.

** Do not use any floor cleaning chemicals containing 2-Butoxyethanol as this will damage the coating surface.
