Durable, practical protection and appearance

Optimize the appearance and extend the life of your linoleum, vinyl tile and sheet vinyl floors with the 3M™ Resilient Floor Protection System. Developed by the floor care innovators at 3M, the 3M Resilient Floor Protection System is scientifically designed to keep resilient floors looking their best—with less maintenance and fewer chemicals.*

- Provides tough, long-lasting protection that stands up to heavy traffic
- Improves productivity and reduces operational costs when used as a complete system
- Environmentally preferable,** uses fewer coats and helps prevent the need for stripping chemicals

Enhance your floor's appearance with Scotchgard™ Resilient Floor Protector.

Resilient floors need protection, not layers of finish that need to be stripped and reapplied on a regular basis. Scotchgard™ Resilient Floor Protector is not a floor finish. It's a proprietary, non-yellowing, low odor hybrid formulation that protects and enhances your floor's natural appearance. Just two coats produce a clean, bright appearance that's up to twice as resistant to abrasion than traditional floor finish when tested under laboratory conditions.

- Long-lasting protection against stains, scuffs and black marks
- Helps prevent the need for stripping, lowering operator and environmental exposure to potentially hazardous stripping chemicals
- High water and salt resistance to hold up in even the most challenging environments
- Develops initial hardness 40% faster than traditional floor finish to reduce risk of early damage
- Able to spot repair and self leveling for easy application in all environments
- Unique polymer technology that reduces strong odor associated with traditional floor finish
- COF exceeds minimum 0.5 by ASTM D 2047

*When compared to traditional floor finish

Less maintenance. Fewer chemicals.

Traditional floor finish can quickly become dull and dirty, requiring regular stripping to maintain their appearance. Floor maintenance is about finding the right set of tools and supplies to give you the best results possible. Once your floors are protected with Scotchgard™ Resilient Floor Protector, maintain their beauty by cleaning daily with 3M™ Neutral Cleaner and occasional burnishing with the long-lasting 3M™ TopLine Speed Burnish Pad 3200.

- Improve productivity and reduce operational costs when used as a complete system
- 3M™ Neutral Cleaner Concentrate leaves floors bright and clean without the soapy residue that can dull your finish
- 3M™ TopLine Speed Burnish Pad 3200 restores gloss while quickly removing scuffs and black marks

**Environmentally Preferable Products are defined by the Instructions for Implementing Executive Order 13423 titled, "Strengthening Federal Environmental, Energy and Transportation Management" as products or services that have a lesser or reduced effect on human health and the environment when compared with competing products or services that serve the same purpose. The comparison may consider raw materials acquisition, product manufacturing, packaging, distribution, reuse, operation, maintenance, or disposal of the product or service.

Increase productivity and reduce chemical use with the 3M™ Resilient Floor Protection System
